## THE ASK

How do we create innovative strategies to drive relevance and trigger need?

### **BIGGEST ISSUE**

Lack of real, actionable human insights

#### VISION OF GOOGLE

Organize the world's information and make it universally accessible and useful

#### VISION OF GOOGLE HOME

Organize the world's information and make it universally accessible and useful at home

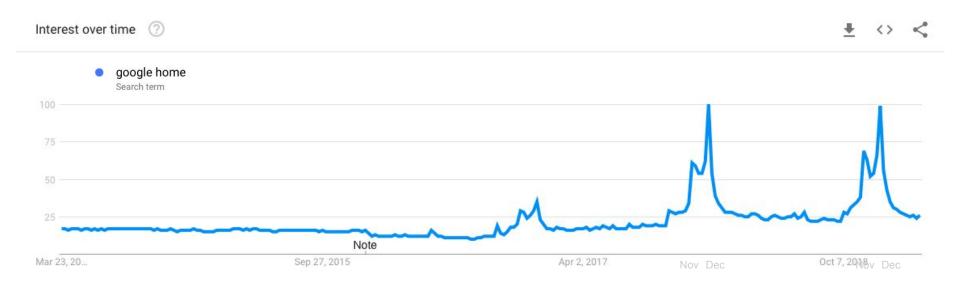

...but in what way?

#### BUSINESS GOAL OF GOOGLE HOME

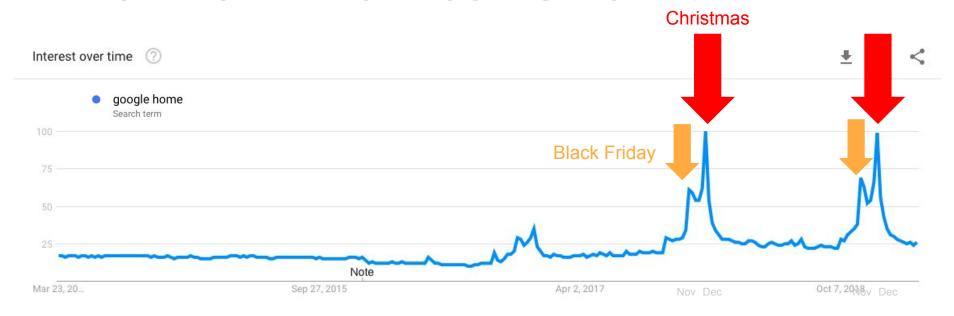

Data collection New and monetizable, which is more about specifically in-home behaviors and triggers

#### WHO DROPPED OFF USING HOME?

#### WHO DROPPED OFF USING HOME?

#### WHO DROPPED OFF USING HOME?

#### WHO DROPPED OFF?

#### CHALLENGE

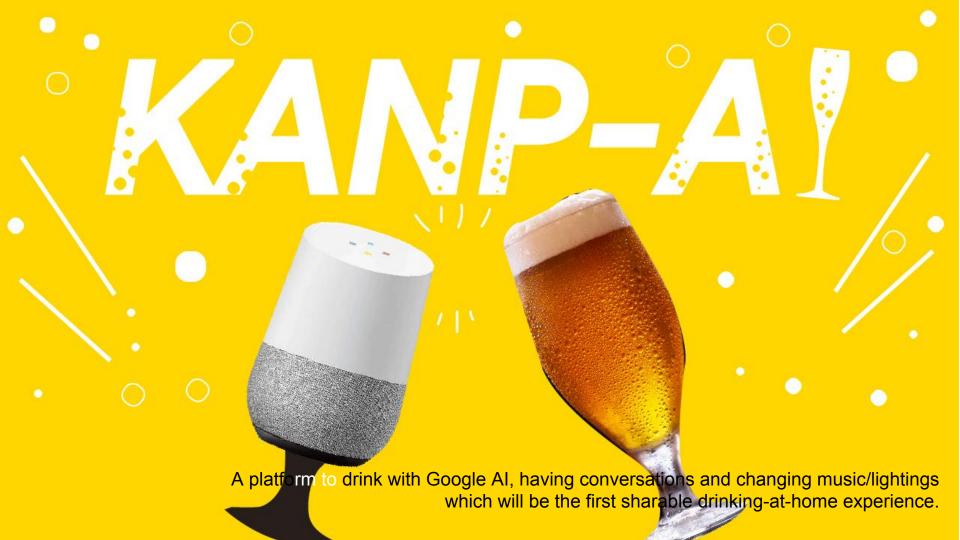

Create an additional product feature of Google Home that makes their daily life popular in social platforms again.

#### INSIGHT

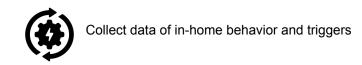

Although I drink at home more often,
Drinking alone at home makes me feel
I am not popular.

#### **HOW IT WORKS**

Input

### IFTTT

"If you say 'Hey Google, KANP-AI, then start conversation about drink knowledge and life like bartenders"

- Drinks name
- Drinks history/ knowledge
- Food pairing
- Amount of drinks/ food
- What's up with life

- Drinking music
- Lighting

Output

Hey Aki, What are you drinking? I will show you the history of whiskey!
